Replaced version: not required

Section 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Substance Name / Trade Name: PIK3CA-11 mutations 12,5% AF cfDNA set (SID-000099)

Index No.: not available

EC-No.: not available

CAS-No.: not available

REACH No.: There is no registration number for this mix.

Other names: not available

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses:

Use as laboratory reagent - for scientific research and development

Uses advised against:

Not for consumer use.

1.3 Details of the supplier of the safety data sheet

Manufacturer / Supplier: SensID GmbH

Street/PO Box: Schillingallee 68

Country-Code/Postcode/City: D-18057 Rostock (Germany)

Point of contact for technical Support

Phone / Fax / E-Mail

+49(0)38137718201 / +49(0)38137718200 / E-Mail: support@sens-id.com

1.4 Emergency Phone No.

SensID GmbH +49 (0) 38137718201 (Reachability: CET on weekdays 08.00-16.00)

Section 2: Hazards identification

2.1 Classification

Classification according to Regulation (EC) No 1272/2008:

mixture contains < 1% EDTA; CAS No. 60-00-4

Corrosive/irritant effect on the skin - Category 2

Severe eye damage / irritation - Category 2A

2.2 Label elements

Label elements according to (EC) No. 1272/2008

Pictogram:
GHS07

Created on: 20.03.2020
Revised on: not required
Valid from: 20.03.2020

Version: 01

Replaced version: not required

Signal word: Attention

Hazard-determining components for labelling contains:

Hazard statements:

H315 - Causes skin irritation

H319 - Causes serious eye irritation

Precautionary statements:

P332+P313 - If skin irritation occurs: Get medical advice/attention

P362 - Remove contaminated clothing and wash before wearing again

P264 - Wash exposed skin thoroughly after handling

P280 - Wear eye protection, face protection, protective clothing, protective gloves

P305+P351+P338 - If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing

P337 +P313 - If eye irritation persists: Get medical advice/attention

Other labelling elements

EU notes on specific hazards:

R-phrases

R36/38 - Irritating to eyes and skin

S-phrases

S26 - After contact with eyes, rinse immediately with plenty of water and seek medical advice

S24/25 - Avoid contact with eyes and skin

S36/37/39 - Wear suitable protective clothing, gloves and eye/face protection

2.3 Other Hazards

Physical hazards

Harmless

Specific effects

No carcinogenic effects

No genetic alteration

No reproductive toxicity

No sensitization

Section 3: Composition/Information on Ingredients

3.1 Substances

Any concentration specified as a range is used to protect confidentiality.

Impurities, stabilising additives and individual components

Not available.

3.2 Mixtures

Here are no additional ingredients which, according to the supplier's current state of knowledge and in the applicable concentration, are classified as hazardous to health or the environment and subject to notification.

Revised on: not required
Valid from: 20.03.2020

Version: 01

Replaced version: not required

Section 4: First aid measures

4.1 Description of first aid measures

After inhalation

Take him out into the fresh air. In case of respiratory arrest with additional oxygen artificial respiration. Immediately call a poison control center or a medical doctor.

After skin contact

Immediately rinse with plenty of water for at least 15 minutes. Remove contaminated clothing and wash before wearing again. Immediate medical attention is required.

After eye contact

Immediately rinse thoroughly with plenty of water for at least 15 minutes, also under the eyelids. Immediate medical attention is required.

After ingestion

Immediately call a poison control centre or medical doctor. Never give water to an unconscious person. Do not induce vomiting without medical doctor's orders.

4.2 Most important symptoms and effects, both acute and delayed

The main known symptoms and effects are described on the label (see section 2.2) and/or in Chapter 11.

4.3 Indication of any immediate medical attention and special treatment needed

Symptomatic treatment.

Section 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media: water spray, Carbon dioxide (CO₂), foam, dry chemicals
Unsuitable extinguishing media: not available

5.2 Special hazards arising from the substance or mixture

Hazardous combustion products: No further known.

5.3 Advice for fire fighter

Wear self-contained breathing apparatus and protective clothing.

Created on: 20.03.2020
Revised on: not required
Valid from: 20.03.2020

Version: 01

Replaced version: not required

Section 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions

Ensure adequate ventilation. Avoid contact with skin, eyes and clothing.

Personal protective equipment

Use personal protective equipment.

6.2 Environmental precautions

Avoid further leakage or spillage if safe to do so. Do not discharge into drains or rivers.

6.3 Methods and material for containment and cleaning up

For containment

Prevent further leakage or spillage if safe to do so.

For cleaning up

Soak up with inert absorbent material

6.4 Reference to other sections

See section 12 for additional information.

Section 7: Handling and Storage

7.1 Precautions for safe handling

Avoid contact with skin, eyes and clothes. Wear personal protective equipment.

7.2 Conditions for safe storage, including any incompatibilities

Information on storage conditions

Store in a dry, cool and well-ventilated place. Store in properly labelled containers, avoid direct sunlight. Keep container tightly closed until ready for immediate use. Opened containers must be carefully closed and stored upright. Do not store in unmarked containers.

General hygiene considerations

Handle in accordance with good industrial hygiene and safety practice.

Section 8: Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limit values and/or biological limit values Occupational exposure limit values (OELs) Germany

Contains no substances with occupational exposure limits according to Regulation (EC) No 1272/2008.

Created on: 20.03.2020
Revised on: not required
Valid from: 20.03.2020

Version: 01

Replaced version: not required

8.2 Exposure controls / Personal protective equipment

Suitable technical control equipment

Provide adequate ventilation, especially in confined areas.

Personal protective equipment

Eye / face protection: Safety glasses with side protection.

Skin protection: Impermeable gloves.

Other skin protection: Light protective suit

Respiratory protection

With aerosol or mist formation. Filter device (EN141) type E against acidic gases.

Heat / Cold protection

No action needed.

Environmental exposure controls

No data available.

Section 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state:	liquid
Appearance:	colourless
Odour:	no information available
Odour threshold:	no information available
pH-value:	no information available
Melting point/Freezing point:	Mixture has not been tested
Boiling point / boiling range:	Mixture has not been tested
Flash point:	Mixture has not been tested
Evaporation rate:	Mixture has not been tested
Flammability (solid, gas):	Mixture has not been tested
Upper/Lower flammability or explosive limits:	Mixture has not been tested
Vapor pressure:	no information available
Vapor density:	no information available
Relative Density:	no information available
Solubility:	no information available
Partition: n-octanol/water:	no information available
Decomposition temperature:	no information available
Auto-ignition temperature:	no information available
Viscosity:	no information available
Explosive properties:	Mixture has not been tested
Oxidising properties:	Mixture has not been tested

9.2 Other information

No data available

Created on: 20.03.2020
 Revised on: not required
 Valid from: 20.03.2020

Version: 01

Replaced version: not required

Section 10: Stability und Reactivity

10.1 Reactivity:

Not known under normal environmental conditions.

10.2 Chemical stability:

Stable under normal conditions and under the temperature and pressure conditions expected during storage and handling.

10.3 Possibility of hazardous reactions:

No information available.

10.4 Conditions to avoid:

Do not mix with ammonium oxides (NO_x).

10.5 Incompatible materials:

No information available.

10.6 Hazardous decomposition products:

None in normal processing.

Abschnitt 11: Toxicological information

11.1 Information on toxicological effects

Chemical name	LD50 (oral, Ratte)
Editic acid (EDTA) 60-00-4	2580 mg/kg

	Editic acid (EDTA) 60-00-4
Acute toxicity:	Based on the available data, the classification criteria are not met.
Skin corrosion / irritation:	Leichte Reizung
Eye damage / irritation:	Verursacht schwere Augenreizung
Sensitisation to the respiratory tract/skin:	Based on the available data, the classification criteria are not met.
Germ cell mutagenicity:	Based on the available data, the classification criteria are not met.
Carcinogenicity:	Based on the available data, the classification criteria are not met.
Reproductive toxicity:	Based on the available data, the classification criteria are not met.
STOT – single exposure:	Based on the available data, the classification criteria are not met.
STOT – repeated exposure:	Based on the available data, the classification criteria are not met.
Aspiration hazard:	Based on the available data, the

Created on: 20.03.2020
 Revised on: not required
 Valid from: 20.03.2020

Version: 01

Replaced version: not required

	classification criteria are not met.
Symptoms related to the physical, chemical and toxicological characteristics	<p>In case of ingestion: No data available</p> <p>In case of eye contact: causes severe irritation</p> <p>In case of inhalation: No data available</p> <p>In case of skin contact: slight irritant effect</p> <p>Further information: None</p> <p>Information on toxicokinetic, metabolism and distribution: No information available.</p>

Section 13: Disposal considerations

13.1 Waste treatment methods

Must not be disposed of together with household waste. Do not discharge into drains. Hand over hazardous waste collector or take to hazardous waste collection point.

Treatment of contaminated packaging

Disposal according to official regulations.

Waste code according to Waste Catalogue Ordinance

Unavailable.

Special precautions

Collection of small quantities: Do not put waste in sinks or bins. Place in collection container for liquid organic residues. Collection containers must be clearly labelled with the systematic designation of their contents. Keep containers in a well-ventilated place. Hand them over to the competent authority for disposal.

relevant EU or other provisions

Not required.

Section 14: Transport information

Transport information is omitted as no special conditions apply.

Section 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Regulation (EC) No 648/2004 (Detergents Regulation): listed

There is no further listing in the relevant European Union (EU) regulations.

National regulations Germany:

Water hazard class

WGK 2 (List classification): hazardous to water

TRGS: ASR A1.3 Observe eye protection

TRGS 201, TRGS 400, TRGS 600, TRGS 500, TRGS 509, TRGS 510, TRGS 800

Created on: 20.03.2020
Revised on: not required
Valid from: 20.03.2020

Version: 01

Replaced version: not required

Other relevant regulations

The substance is classified and labelled according to the CLP Regulation: GHS07

Signal word: Attention

REACH Art. 57: is not included

15.2 Chemical safety assessment

DGUV Regel 112-195

Use of protective gloves Updated reprint October 2007

Section 16: Other information

The information in this SDS is provided in good faith based on our knowledge, but they do not constitute an assurance of product properties and do not establish a contractual relationship. The information contained in this SDS should not be considered as exhaustive and only serve as a guide. All materials and mixtures can harbour unknown hazard and should be used with care. Since conditions of use of the product are not under the control of SensID GmbH, it is the duty of the buyer/user to determine the necessary conditions for the safe use of the product. SensID GmbH will not be liable for any damages resulting from handling or contact with the product.

Changes compared to the last version:

No change, version 01.
